

Series of Activities for the 40th Anniversary of the Founding of Zhejiang Shuren University

Notification of 2024 International Academic Conference on Health and Care (The First Notification)

Distinguished Experts, Scholars, and Industry Leaders,

In the face of the challenge of a globally aging population, promoting the in-depth transformation and upgrading of the health care industry by means of revolutionary breakthroughs in technology and innovative allocation of production factors has become an important way for the integration, transformation, and innovation of multiple disciplines, such as medicine, biotechnology, environmental health, information science and technology, family community and social governance.

On the occasion of the 40th anniversary of the founding of Zhejiang Shuren University, the university is going to hold the “2024 International Academic Conference on Health and Care” from November 7th to 9th. Themed by “New Quality Productive Forces and High Quality Development of Health Care Industry”, the Conference is held to discuss the opportunities and challenges of technological innovation in health care from the perspective of globalization, to promote the in-depth integration and innovation of interdisciplinary research and application in the field of health care, to share the international advanced experience and the best practices of enterprises of the health care industry, and the new ideas on the establishment and continuous optimization of the talent training system of smart health care.

The university is expecting experts, scholars, and industry practitioners from different fields to attend the Conference, discuss the interdisciplinary integration, latest research progress, technology application, and management innovation in the field of health care, and promote the health care industry to adapt to the transformation and development of new quality productive forces and to actively respond to the challenges of global aging.

We sincerely invite you to take your time to attend this Conference for guidance!

I. Conference Theme and Sub-forum Topics

1. Conference Theme

New Quality Productive Forces and High Quality Development of Health Care Industry

2. Sub-forum Topics

[Sub-forum 1] Allocation of new elements: Sustainable development of health care industry and innovation of social governance

This sub-forum is held to discuss how to promote the development of the health care industry through the efficient allocation and optimal use of production factors, and achieve innovation in the field of public management. The topics are centered on identifying and solving the challenges in resource allocation and management efficiency in the health care industry, and discussing how to make use of modern management concepts and technological means to enhance the sustainability and popularity of health care services.

[Sub-forum 2] Integrated service: Technology construction and innovation in field of medical and health care

This sub-forum is held to discuss the multi-disciplinary integration of basic medicine, translational medicine, geriatric medicine, geriatric nursing, preventive health care, rehabilitation medicine, information technology, and artificial intelligence, and to promote the integration and innovation of medical and health care services. The topics mainly include cutting-edge studies and practical examples in the law of aging and the disease development mechanisms, new models of health management for vulnerable populations, and artificial intelligence and the integration of medical treatment, health care, nursing, and health management.

[Sub-forum 3] Green functional materials: Application in the fields of environment and health

This sub-forum is held to discuss the application of green functional materials in the fields of environment and health to reduce environmental risks, enhance environmental health, optimize the living environment, improve resource utilization, and promote sustainable development. The topics are centered on cutting-edge studies and challenges in the fields such as the management of new pollutants by green functional materials.

II. Duration of the Conference

November 7th-9th, 2024

III. Venue of the Conference

Venue: Zhejiang Shuren University (Yangxunqiao Campus)

IV. Form of the Conference

The attendees will attend this Conference offline; the number of offline attendance will be limited to be less than 100.

V. Schedule of the Conference

Time	Nov. 7th	Nov. 8th	Nov. 9th
9:00-11:30		Anniversary Celebration	Sub-forums
12:00		Lunch	Lunch
14:00-17:30	Sign for Arrival	Opening Ceremony/ Keynote Reports	Departure
17:30	Dinner	Dinner	

Note: If any change, please refer to the final notification.

VI. Registration

The language used in the Conference is English. If you are planning to attend this Conference, please fill in Appendix 1 *Registration Form*.

The scholars are welcome to write papers by centering on the Conference theme and the sub-forum topics. The organizing committee will compile them into a book and recommend the best to relevant journals for publication.

Please send the *Registration Form* (Appendix 1) to ihcic@zjsru.edu.cn before **June 20th, 2024**. Please send your papers (including the abstract in English) to ihcic@zjsru.edu.cn by **August 30, 2024**.
